| Course Topics | • Direct and indirect Composite Resin Materials  
• Classification, Composition, Polymerisation and Clinical Applications  
• Bonding procedures for Direct Composite Resin Restorations  
• Cavity preparations. What has changed? Beveling, preparation extension, deep cavities, pulp protection  
• Occlusal Adjustments, polishing and finishing  
• Decision making tree in direct restorations  
• Preparations for indirect Composite Resin Restorations  
• Bonding of Indirect Composite Resin Restorations, IDS technique |
| Learning Objectives | By the end of this course participants will be:  
• Familiar with current direct and indirect composite restorative materials  
• Familiar with contemporary bonding techniques  
• Able to restore challenging restorative cases by following a step-by-step decision tree |

This course is based on contemporary, evidence-based knowledge and provides the Dental Clinician with a detailed step-by-step treatment guide on direct and indirect Composite Restorations.
Presented by Dr Vasilios Chronopoulos

MATERIALS, TECHNIQUES AND BONDING

COLTENE

Course

This course is based on contemporary, evidence-based knowledge and provides the member of numerous scientific societies. He is the Director of the Australian Institute of Continuing Education in Dentistry.

He lectures nationally and internationally on Esthetic Dentistry, Implants, Prosthodontics and Dental Materials. He is a

He maintains a Private Multi-disciplinary Dental Clinic in Athens, Greece and is a partner in the Dental Implants and Aesthetics Dental Center in the Gold Coast.

PROFESSOR VASILIOS CHRONOPOULOS

Professor Vasilios Chronopoulos received his Dental degree from the University of Athens, Greece and his certificate in Prosthodontics from Marquette University in Milwaukee, USA. He has a MS and a PhD in Dental Biomaterials from the School of Dentistry, National and Kapodistrian University of Athens, Greece.

Over the last two decades Professor Chronopoulos has held several Full time and Honorary Academic positions, including:

• Professor of Restorative Dentistry, School of Dentistry and Oral Health, Griffith University, Australia

He has authored and co-authored over 60 publications, chapters in Prosthodontic textbooks and a textbook on All-Ceramic restorations and a Clinical manual on Restorative Dentistry.

He lectures nationally and internationally on Aesthetic Dentistry, Implants, Prosthodontics and Dental Materials. He is a member of numerous scientific societies. He is the Director of the Australian Institute of Continuing Education in Dentistry.

He maintains a Private Multi-disciplinary Dental Clinic in Athens, Greece and is a partner in the Dental Implants and Aesthetics Dental Center in the Gold Coast.
