Cotton Rolls

Features

- Henry Schein Cotton Rolls are made from 100% cotton for greater absorbency
- Longer fibres reduce linting
- Can easily be cut into smaller pieces with scissors for effective use in tight intraoral cavity areas

HS896-9286 #2 - 2000 Per Box
HS-9008527 #2 - 600 Per Box

Cotton Tipped Applicators

Features

- Soft, absorbent, cotton-tipped applicators allow for easy application and will not lint
- Made from high quality hard wood, these applicators offer superior performance
- Nonsterile, packed in bags with sterilisation indicator strip on the outside
- Latex-free

HS100-9175 1000 Per Box

Luna Cotton Roll

roeko

Roeko Luna dental rolls are quite different from standard cotton rolls. Roeko designed and produced a roll which goes on absorbing moisture throughout the procedure while holding away the cheek for sufficient working space. The firmness and compactness of Luna rolls make them so economical as there is no need to replace them during treatment. Luna rolls are manufactured from non-chlorine bleached fibres to help reduce pollution.

RO-104001 #1 - Pkt 1000
RO-104002 #2 - Pkt 1000
RO-104003 #3 - Pkt 1000

Luna Cotton Roll For Kids

roeko

Features

- Super soft and extremely absorbent
- Best quality cotton ensures constant high absorbency
- Fully automated production ensures uniform size and shape from roll to roll

RO-100032 Size 2 Pkt 200

Cotton Products

Luna Gold

roeko

Luna Gold has a mucophile cover which prevents contact between the fibres and the soft tissue. Luna Gold can therefore be removed without wetting the dental roll beforehand. There is no risk of tissue inflammation, an important feature when treating sensitive patients. The exceptional quality of Luna Gold is easily recognised- the gold stripe differentiates Luna Gold from standard dental rolls. Non chlorine bleached, this is the highest German made quality.

Wrapped Cotton Roll

RichmondDental

- RI-200404 Plain Non-Braided 38.1mm Dia 2000

Braided Cotton Roll

CROSSTEX
A Carsted Medical Company

Features

- Made from 100%, short fibre cotton
- Bound by thin strands of polyester filament
- Starch-free for maximum softness
- Tightly braided to maintain shape when wet
- Highly absorbent
- Will NOT adhere to mucous membrane

- CX-DNCB 4 x 1cm 2,000 Box

Advantage Plus

CROSSTEX
A Carsted Medical Company

Features

- Made from 100% cotton
- Contain NO cellulose or rayon fibers
- Soft, pliable, non-linting
- Will NOT adhere to mucous membrane
- Maintain shape when wet
- Absorb up to 10 times their weight

- CX-DNAC #2 Medium 4 x 1cm

Dry Tips

Dry Tips are the ultimate in saliva control. They keep the parotid gland in check for 15 minutes - far outlasting cotton rolls and other absorbent pads and they absorb and retain 30 times their own weight in moisture.

- WN-9903416 Large (Blue) Box 50
- WN-9903418 Small (Green) Box 50

Premium Cotton Rolls

CROSSTEX
A Carsted Medical Company

Features

- Made from 100% cotton
- Contain NO cellulose or rayon fibres
- Soft, pliable, non-linting
- Will NOT adhere to mucous membrane
- Maintain shape when wet
- Absorb up to 10 times their weight

- CX-DNC #2 Medium 4 x 1cm

Braided Cotton Rolls

RichmondDental

Features

- Innovative flexible design for excellent adaptability and a secure fit into the buccal curvature and the sublingual space
- Higher, quicker absorption without losing its shape, reducing the number of rolls needed
- Provides isolation while maintaining an excellent dry field with a unique wicking action
- Does not stick to mucosa, making it easy to remove from the patient's mouth
- No need to rewet

ROEKO ASPIRATOR TIPS

The ROEKO Surgitip aspirator tip product family presents itself as well thought through and innovative. The plastic tips are hygienic, easy to handle and with their eye-catching green tips they enable extremely precise suction in surgery and microsurgery. The fine Surgitip-endo facilitates aspiration, even in the root canal.

Surgitip-endo

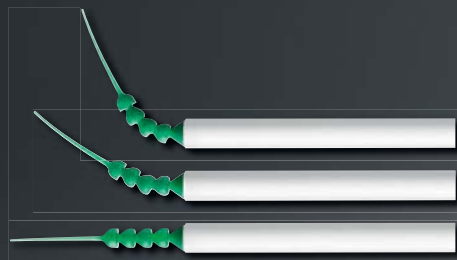

Endodontic aspirator tip for root canal treatment

Surgitip-endo removes rinsing solutions and moisture quickly and effectively from the root canal.

Surgitip Aspirator Tips

The plastic aspirator tips allow extremely accurate aspiration as the shape and design have been specially developed for working under a microscope or loupe.

Concorde II

For aspirating high volumes

Aspirator tip for universal aspiration which gently keeps the tongue and cheek away.

Blue Rubber Tip For A-1 Vacuum

M-5190460

Isolite System **isolite**SYSTEMS

A dental isolation device that provides two channels of continuous hands-free vacuum suction and brilliant intra-oral illumination. The strong, ultra-lightweight Isolite Control Head Assembly is constructed of titanium, weighs only 2.5 ounces, and features first-of-its kind LED technology. Fingertip lighting control allows the clinician to select from five light-intensity settings, including a "CURE-SAFE" mode for light-sensitive materials. The LED light source is rated for 5,000+ hours. Dual vacuum controls enable you to focus suction in either the upper or lower quadrant, allowing you to better control moisture and oral humidity. The Isolite integrated vacuum/power hose measures 6 feet long, is made of silicone, and connects easily to most standard high-volume ports in the operator.

IT-EIL0205

Isolite Mouth Piece With Tongue Shield

Box 10

- IT-CIL0101 Pedo 50mm Tongue Shield
- IT-CIL0601 Small 55mm Tongue Shield
- IT-CIL0701 Medium 56mm Tongue Shield
- IT-CIL0801 Medium DV 57mm Tongue Shield
- IT-CIL0901 Large 65mm Tongue Shield

ISODRY System **isolite**SYSTEMS

The Isovac dental isolation adapter is perfect for rounding out other operatories with easy-to-use oral control. Like the Isolite and Isodry you can take advantage of all the benefits of our award winning Mouthpieces. The strong, ultra-lightweight Control Head Assembly is constructed of an easy-to-clean autoclavable polymer. Dual vacuum controls enable you to focus continuous hands-free vacuum suction either in the upper or lower quadrant, allowing you to better control moisture and oral humidity. The adapter quickly attaches to an available HVE line in the operator. The Isovac is the perfect solution for practices to add an affordable and versatile alternative for oral control.

Surgitip Aspirator

roeko

Surgitip is a sterile tip with an extra fine opening for precise aspiration during surgical procedures. Its special length and shape make it easy to use and ensure effective aspiration without clogging.

Surgitip is packed individually in a sterile paper peel-pack. Surgitip puts an end to time consuming cleaning, disinfection and sterilization and above all it puts an end to any uncertainty. Surgitip is available with three sizes of opening and is supplied with a autoclavable double adaptor suitable for all standard equipment.

Econoback Bib

Features

- Provides the often imitated, but never duplicated Crosstex embossing pattern, which allows moisture to flow horizontally across the towel, protecting patient's clothing.
- Offers our exclusive reinforced edge embossing design for added strength and durability where towel clips are placed
- Bonds the layers of tissue (and poly, when applicable) securely together, eliminating separation of the layers
- Creates the strength of the towel horizontally through the combination of our proprietary manufacturing equipment and tissue formulation. This prevents tearing when a towel clip is applied

- 2-ply tissue w/1 ply poly
- Size 19" x 13" (48cm x 33cm)

- Compact design fits outside patients lips, non-threatening and comfortable for patients
- Radiographs may be taken without removing the rubber dam by folding it to the side
- Single use only
- Comes pre-assembled
- Dimensions: 4 1/4 diameter
- 20 sheets

ZC-50Z455 Latex Natural
ZC-50Z459 Latex Free Blue

OptiDam

Features

- Accessibility. 3D, anatomically designed frame and dam provide widened access and visibility.
- Comfort. Reduced tension minimises your hand fatigue and increases patient comfort.
- Easy Placement. Raised tab design ends tedious tooth marking, hole punching and trimming. Preshaped frame and dam take the guesswork out of placement.
- Unmatched isolation. Keeps the patient's cheeks, tongue, lips and gums out of the way to ensure a dry, contaminant-free operating field.
- Increased productivity. Minimises time spent mouth rinsing. Assembly and placement are easy and quick.

- 3" round

HS201-6774 Box 100

SteriPocket Sponges

Richmond Dental & Medical

Features

- Perfect for dispensing to patients after an extraction
- Patients leave office confident that the sponges remain sterile until opened
- Saves time - assistants do not have to sterilise and package sponges for patients.
- Saves money - assistants can easily control the number of sponges

RI-300408 Box 600

COTTON PRODUCTS

Sophisticated fully automated production at the Langenau site in Southern Germany ensures precision and the highest quality for ROEKO cotton wool products. Consumption in the dental practice is therefore low - thus ensuring trouble-free working and perfect results. Besides quality, labour saving is always in focus for the dentist and the patient's convenience too. That is why ROEKO cotton rolls are unusual and versatile and fulfil very specific requirements.

Luna Gold - tissue friendly dental roll

Luna Gold has a mucophile cover and can therefore be removed without wetting the dental roll beforehand. There is no risk of tissue inflammation.

Luna for kids - dental roll for children

The Luna for kids rolls are extra short and keep their shape throughout treatment. They create sufficient working space even in the smallest mouth.

Parotisroll - with spring action inside

Parotisroll fixes itself and placed correctly on the parotis gland reducing the patient's saliva flow.

Syringe Tips

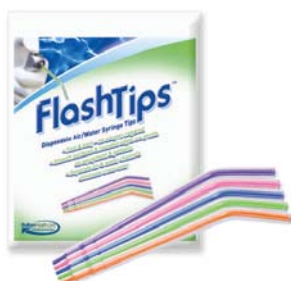

SureTip

Disposable syringe tip.

HS102-8981 Pkt 250

FlashTips

- Quick and easy changeover after each patient
- No converters required (on most common syringes)
- Disposable, to help prevent cross contamination
- Locking indicator and wide locking groove ensure tip is in place and safe
- Smooth, rounded edges to prevent harm to patients and equipment
- Inner tube does not shift under pressure (unlike leading competitors)
- Separate air and water chambers to minimise crossover
- Built strong for cheek retraction
- 5 great colours in each pack! (blue, purple, pink, orange and green)

- Metal
- Autoclavable

HS642-2704 Pkt 5

Safe-Tips Ez

Features

- Directly interchangeable with A-dec® style metal tips
- Identical performance
- Constructed with plastic and stainless steel
- No syringe conversion required before use

KE-P44150 Dispenser Pouch Pkt 150

KE-P44600 Bulk Kit Pkt 1600

Seal-Tight Syringe Tips

Features

- Disposable syringe tip with built-in rubber O-ring seal makes syringe work like new every time
- Dry air on demand
- Reduce risk of restoration failures due to moisture
- Fast tip changing with easy-to-install push-button converters

KE-P77220 Pkt 200

Seal-Tight® Adapter

Features and Benefits

- All DentalEZ syringes manufactured after January 1997 will use an A-dec adapter
- After the adapter is installed, there is no need to loosen and tighten the thumbnut for each tip placement, simply push on the yellow auto lock ring and remove the tip and then push a new tip into the adapter and it's ready to use
- The inner yellow seal acts like a new O-ring with each tip replacement, insuring dry air on demand
- The tip can be bent to a 90° angle for certain procedures

KE-P77021 Adaptor A-dec Styles

KE-P77031 Adaptor Snap-On KaVo

KE-P77200 Disposable Syringe Tips Pkt of 200

Syringe Tips

Riskontrol Tips

Features

- Protection for the patient, the practitioner and assistants
- Reduced risk of direct or cross-contamination
- No risk of ingestion: safety-locking device
- Flexible tips, very easy to bend
- Non shape-memory: keep the ideal curve
- Two separate tubes guide air and water from the syringe to the end of the tip, ensuring totally dry air
- Saves time (no need for cleaning/ disinfection/ sterilisation, so no need to ensure traceability)
- Tips made from entirely recyclable food-quality plastic
- Environmentally-friendly
- Pollution free in the case of combustion
