

SimpliShade™

This universal composite covers all 16 VITA® classical shades with just 3 shades, and is powered by Kerr's Adaptive Response Technology. No blocker required!

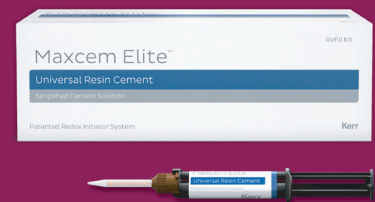

OptiBond™ Universal

One-bottle universal adhesive, providing excellent adhesion to a variety of substrates for direct and indirect applications - even indirect metal-based restorations when used with Maxcem Elite™.

Maxcem Elite™

This cement now features universal flexibility as a self-adhesive cement or as an adhesive-resin cement when paired with OptiBond™ Universal on a preparation requiring more retention.

Three trusted brands. One solution for simplifying your restoration workflow and inventory management. Zero compromise.

UNIVERSAL COMPOSITE

SimpliShade™

Restoration needs simplified with just three shades.

Work of ART

Lifelike restorations come with exceptional strength and unmatched aesthetics, thanks to the proven Adaptive Response Technology (ART) also used in Harmonize™.

Shade-Matching Made Easy

With just three shades (Light, Medium, Dark) to match all 16 VITA classical shades, matching is much faster and easier.

Minimise Inventory Management

With fewer shades to meet virtually all your composite needs, you'll spend less time and money re-ordering parts, reducing or eliminating expired products, and managing inventory.

UNIVERSAL BONDING AGENT

OptiBond™ Universal

One adhesive, many procedures.

Exceptional Bonding

Built-in GPDM monomer provides excellent bond strength to all surfaces and substrates for indirect restorations.

Simplified Steps

Streamlined One Bottle System and one-coat application eliminate steps for all bonding techniques including self-etch, selective-etch, and total-etch.

Fewer Accessories

Perform indirect procedures without the need for separate ceramic/saline or metal primers.

SELF-ETCH, SELF-ADHESIVE RESIN CEMENT

Maxcem Elite™ Universal Resin Cement

One cement for all your needs.

Freedom To Choose

Simplify your inventory requirements and keep using your preferred cementation technique with a self-adhesive cement that can also be used as a resin cement with a universal bonding agent.

Strength Meets Simplicity

Boost confidence with best-in-class bond strength with OptiBond Universal, without having to light-cure the adhesive — saving you steps and time.

Easy Cleanup

Cleanup is a cinch with One-peel™ removal and with Maxcem Elite Chroma's Cleanup Indicator which dispenses pink before fading at the gel state, indicating the optimal time to clean up excess cement.
